FIT3083 e-Business software technologies - Semester 2, 2013

The emphasis in this unit is on the software technologies and data formats used to implement e-Business Systems. Although this unit is entirely suitable for a future developer of e-Business Systems, it is optimally targeted at future managers of such development. Thus practical exercises will be illustrative rather than industrial strength and technology issues will be given equal coverage with technology details. The primary aim of the unit is to familiarise students with as many of the currently popular e-Business technologies as possible so that their design and implementation decisions in the future will be informed and therefore produce successful systems with a high degree of probability.

Mode of Delivery

Clayton (Day)

Contact Hours

2 hrs lectures/wk, 2 hrs laboratories/wk

Workload requirements

Workload commitments are:

- two-hour lecture and
- two-hour tutorial (or laboratory) (requiring advance preparation)
- a minimum of 2-3 hours of personal study per one hour of contact time in order to satisfy the reading and assignment expectations.
- You will need to allocate up to 5 hours per week in some weeks, for use of a computer, including time for newsgroups/discussion groups.

Unit Relationships

Prohibitions

FIT2013

Prerequisites

FIT1002 or FIT2081 or equivalent

Chief Examiner

Mr Stephen Huxford

Campus Lecturer
Clayton

Hongli Song
Academic Overview

Learning Outcomes

At the completion of this unit students will have -

A knowledge and understanding of:

- client-side programming ((X)HTML, JavaScript, CSS, DHTML, DOM);
- server-side programming (ASP.NET, Ruby on Rails, JSF);
- basic XML technologies (XML, DTD, XPath, XSLT, XMLSchemas);
- web Servers (IIS, Apache);
- current, popular IDEs and programming technologies
- security (encryption, transport and document level, Digital Signatures, SSL, TSL, Access Control Standards);
- standards Bodies (IETF, W3C, OASIS, OAGIS etc);
- eBusiness formal and de jour Standards;
- mobile Application Development.

Developed attitudes that enable them to:

- have an appreciation that eBusiness Systems are better designed and managed by professionals with a sound knowledge of the technologies used to build these systems;
- have an appreciation that underlying technologies often directly impact the business goals of an eBusiness System via constraints and opportunities presented by the technologies;
- have a belief that all existing technologies in back-end systems can be integrated by appropriate middleware;
- value the importance of choosing to use established technology standards where possible.

Developed the skills to:

- develop a small eBusiness system (B2B or B2C and IDE/implement the appropriate technology;
- create an appropriate Technical Architecture for a specified, non-trivial eBusiness solution;
- create XML documents, schemas for these documents, transforming and querying such documents using fundamental XML skills.

Demonstrated the communication skills necessary to:

- identify and communicate the technical opportunities and problems associated with a particular technical solution to a business solution;
- understand the relationship between business and technical analysts within an eBusiness System Development.

**Teaching Approach**

**Lecture and tutorials or problem classes**

This teaching approach provides facilitated learning, practical exploration and peer learning.
Assessment Requirements

Assessment Policy

Faculty Policy - Unit Assessment Hurdles

Academic Integrity - Please see the Demystifying Citing and Referencing tutorial at http://lib.monash.edu/tutorials/citing/

Assessment Tasks

Participation

• Assessment task 1

  Title: 11 Laboratory Assessments

  Description: During each lab session students will be required to complete specified coding tasks. This work will be marked in the same laboratory session.

  Each laboratory is worth 4% of the final mark. The best 10 of the 11 laboratory marks will constitute the 40% non-exam mark for each student.

  Weighting: Each of 10 tutorials will be worth 4 marks for a total of 40% of your final mark for the unit

  Criteria for assessment: Students will be awarded marks for completing coding tasks according to the principles and styles enumerated in lectures. It is important to understand working code will NOT attract full marks in its own right. Students will be questioned on their code. Marks will only be given for code the student can clearly describe and sematically interpret to the satisfaction of the tutor.

  Due date: Tutorial work will be marked in tutorials

Examinations

• Examination 1

  Weighting: 60%

  Length: 3 hours

  Type (open/closed book): Closed book

  Hurdle requirements: Exam mark and non-exam mark must both be 40% or above

  Combined mark must be 50% or above

  Electronic devices allowed in the exam: None
Learning resources

Monash Library Unit Reading List
http://readinglists.lib.monash.edu/index.html

Feedback to you

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Solutions to tutes, labs and assignments

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: http://www.monash.edu.au/exams/special-consideration.html

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Assignment submission

It is a University requirement (http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-procedures.html) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz). Please note that it is your responsibility to retain copies of your assessments.

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.

Required Resources

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

Microsoft Visual Studio.Net 2010

Latest browsers (eg. Chrome, Firefox, IE)
Prescribed text(s)

Limited copies of prescribed texts are available for you to borrow in the library.

Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at:

Key educational policies include:

- Academic integrity;  
  http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-policy.html
- Assessment in Coursework Programs;  
- Special Consideration;  
  http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.html
- Grading Scale;  
  http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html
- Discipline: Student Policy;  
  http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html
- Academic Calendar and Semesters;  
  http://www.monash.edu.au/students/dates/
- Orientation and Transition;  
  http://intranet.monash.edu.au/infotech/resources/students/orientation/
- Academic and Administrative Complaints and Grievances Policy;  
  http://www.policy.monash.edu/policy-bank/academic/education/management/complaints-grievance-policy.html
- Code of Practice for Teaching and Learning;  
- Graduate Attributes Policy  
  http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.html

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at http://www.monash.edu.au/students. For Sunway see http://www.monash.edu.my/Student-services, and for South Africa see http://www.monash.ac.za/current/.

Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Sunway, visit the Library and Learning Commons at http://www.lib.monash.edu.my/. At South Africa visit http://www.lib.monash.ac.za/.
Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

Website: http://www.monash.edu/equity-diversity/disability/index.html
Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Community Services at 03 55146018 at Sunway
Email: dlu@monash.edu
Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Sunway Campus

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:
www.monash.edu.au/about/monash-directions and on student evaluations, see: www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html
